

Health information

If You Feel Unwell:

To reduce the risk to others, we ask that you stay at home if you feel at all unwell (this applies to any illness, not just Covid).

If you have come into contact with someone who has tested positive for Covid, or who has Covid symptoms, we ask that you take a lateral flow test before attending the Centre

To minimise risks we are also :

- keeping spaces well ventilated and clean
- providing hand sanitiser for use
- making some events bookable and/or limiting numbers

Thank you for your support
